1 Introduction

This report documents the findings and conclusions of the status update of the findigs as stated in the 1st Compliance Report dated 31st July 2018. The assessment was conducted between 17th November, 2018 and 3rd December, 2018 by the Compliance Unit. The assistance offered officials of Alternative Energy Promotion Centre (AEPC) is gratefully acknowledged. This trimester review has been conducted concetrating on the OAG and Compliance Unit findings. The internal audit findings of FCGO are superseded by the corresponding final audit conducted by the OAG. The issues closed by the 1st Compliance Review dated 31st July, 2017 are not included in this assessment. The assessment was carried out against the relevant indicators for progress by assigning ratings of High, Medium nd Low. The progress levels are reproduced below in Table 1: Levels of of Progress:

Table 1: Levels of Progress

Progress Level	Description
High Progress	Represents a situation where the issues identiifed have been closed by AEPC management and
	approval obtained from the Office of Auditor Generel (OAG)
Medium	Represents a situation where the issues identiifed have been closed by AEPC management but
	approval yet to be obtained from the OAG also represents a situation where the issues
	identiifed reflects good progress made
Low Progress	Represents a situation where there is no progress or very less progress made in the the issues
	identiifed.

This Trimester review report measures the trajectory of progress since the 1st Compliance Report dated 31st July, 2017 assessment using an arrow system.

2 Progress Assessments

The findings are based on the Preliminary Report of the Office of Audit General (OAG) for the fiscal year 2073/74 dated 26th February, 2018 and Preliminary Report of OAG for fiscal year 2072/73 and 2071/72. The findings closed during the 1st Compliance Report dated 31st July, 2018 have not been included in the assessment. The following coding system has been used to represent the date and name of the report where the findings have been depicted. In case of OAG findings, the number assigned by the OAG audit follows the codes given below respectively.

Table 3: Basis for coding of findings/issues

Table 4: 1st Trimester Assessment (F.Y. 2018/19)

S.N.	Findlings/Issues	Progress as of 31 st July 2018	Progress as of 30 th Nov 2018	Δ	Evidence/Assesment as of 30 th Nov, 2018				
	Human Resource								
1.	PR7374-3&4: Operations needs to function based on the organizational structure, management as well as division of work as per rule 45(j) of Financial Procedure Rules 2064. For smooth daily operation of the AEPC, 54 employee quotas have been approved. Out of which 46 positions has been fulfilled and 8 remains vacant. This affects daily operation overall achievement.	Low	Medium	↑ +	AEPC fulfills its requirment also via contractual staff. Contractual recruitment process such as dated 2075/7/20 (November 6th 2018) announced a vacancy for 19 engineers, 3 technical consultant, 3 Non technical, 18 Assistant level and 6 junior levels. Another vacancy announcement dated 15 nov 2018 for financial expert and Program Consultant (Enginner/Environment/Climate Change).				
		Capital Ex	penditure						
2.	PR7374-5: Quarterly targets need to be set and implemented based on the annual budget and programme. Out of the annual total expenditure NPR.3,878,865,895.90/-; 22.06%, 24.53% and 53.41% of the total expenditure has been incurred during first, second, and third quarter respectively. In a single month of Ashad, NPR.152,088,2741.45/- i.e. 39.21% of expenses has been incurred. Even though the Centre had received the authority to spend on time, the trend of incurring major portion of the expenditures in the last quarterultimately	Low	Low	\leftrightarrow	As per the discussion with AEPC, besides the given management response, the tendering and bidding process and installation at the far flung areas are the one of the main reason behind the delays. The previous Management Response stated that: In the case of mini hydro projects, post completion of construction AEPC conduct power output verification which takes place during the rainy season (Baisakh, Jestha and Asadh). Since the payment is made after the completion of power output verification, the expenditure related to micro hydro projects are bound to be on the higher side during the third quarter. Similarly biogas related activities also takes place during the third quarter. AEPC aims to develop a budget implementation work plan to minimize the trend of high spending during the third quarter.

	could not be determined.				3 December, 2010
29.	PR7374-28: Annual progress: As	Medium	High	^ +	As per the report progress on 3
29.	per the progress report provided by AEPC, following is the status of target and achievements of NRREP. As per the progress report, NPR.314,728,000/- budget for two programme under productive energy use and NPR.30,000,000/- budget for reconstruction of earthquake affected micro and small industry, there is zero progress. NPR. 302,500,000/- budget for institutional and community biogas plant and two programmes under loan mobilization by central renewable energy fund the progress achieved has been less than 10%. In case of improved metallic cook stove, solar drinking water and irrigation pump installation and other 15 programmes have achieved progress less than 50%. These figures are concerning.	Medium	High	† +	As per the report progress on 3 programs is nil as these programs were not implemented, progress on 16 programsis less than 50% and progress on 5 programs is more than 50%. Even though the amount of foreign aid to be received from the donor agency as per the agreement was included in annual budget for NRREP program for the fiscal year 2073/74, due to the reason that Denmark decision on closure of their embassy in Nepal and the major donors Norway and Denmark decision to reduce 50% of foreign aid being provided to developing countries resulted in 70% of budget reduction in the renewable energy sector. Furthermore, as fiscal year 2073/74 being NRREP's closing year on the part of the donors, this has directly affected the progress of various programs under NRREP. Hence, due to these unforeseen and uncontrollable circumstances, targeted progress could not be
30.	PR7374-29: Unreleased Budget:	Low	High	<u></u>	achieved. The process of development of
	The approved budget under the heading 3311103 of NRREP is NPR.4,865,524,000/ Out of which under the head "capital subsidy for other institutions and individuals" approved budget of NPR.193,745,000/- was not released from Germany KFW. In the previous year as well, budgeted amount have not been released and expended. Proper clarification is not provided for non-release of budget. Donor agencies will be demotivated due to the inability to spend approved and released budget, hence all the parties involved should be concerned about the utilization of budget to achieve the objectives.	Dow	Tilgii		Programme Implementation Modality is finalized with KFW.
31.	PR7374-30: Payment made without VAT Invoice: Advocate Mr. Shambhu Prasad Dahalwas contracted for NPR. 350,000/-including VAT for translation of Renewable Energy Subsidy Policy into English. The payment made from Voucher No. 349/074/3/18 is without VAT invoice. The VAT	Low	Low	\leftrightarrow	Open, the follow-up is ongoing

44.	PR7374-41.1: Retention Money:	_	Medium	<u></u>	As per the management response: "In		

					3" December, 2018
	As per rule 124(2) of Public Procurement Rules, 2064, retention money has to be refunded after service provider submits the annual income tax return in the Inland Revenue Department. The refund in the case of service provider of solar energy system installation i.e. 10 % retention money will be refunded after inspection from AEPC. Bank Guarantee and inspection report with recommendation for payment could not be tracked while refunding the retention amount. AEPC has refunded the retention money to service provider listed below on the basis of the performance guarantee. The refund of retention money NPR.5,310,291/-is not regular.				this context, the security deposit amount shall not be refunded based on the performance guarantee clause of the Public Procurement Regulation 2064. The refund requires monitoring and recommendation from the respective technical person. AEPC follows the predominant rules and procedures"
45.	PR7374-41.2: Refund of 10% retention money related to Solar energy installer companies is to be provided post the monitoring of the system. The monitoring report needs to deem the installation satisfactory prior to releasing the retention amount. Amount of NPR.1,675,194/- from V.No. 2/2073/5/20 has been refunded to Deep Light Energy Pvt. Ltd. without inspection and recommendation. This has resulted in non-compliance with the procedures before refunding the retention money	Low	High	† +	As per the management response: " Details regarding retention money amounting NPR. 16,75,194 refunded to Deep light energy Pvt. Ltd. post completion of all the activities was missed due to human error in the inspection report. In future AEPC will fully update the detail liability statement on refund of retention amount." The report ha been updated.
46.	PR7374-42: Clean Development Mechanism (CDM): For minimization of smoke and carbon emission, AEPC received NPR.557,511,013.33/-in the previous year and NPR.110,021,679.10/-in the current year from carbon trading; total NPR.667,532,692.43/- has been deposited in to the carbon fund. No expenses have incurred from the fund. As per the clarification from AEPC, the mobilization guidelines for the fund have been formulated; however, since the approval on the procedure is yet to be obtained, the fund has remained unutilized. This wasnoted in the previous report but the status of approval has not improved in the current the fiscal year as well.	Medium	Medium	↔	As per the management response: The fund mobilization guideline has been sent to the Ministry of Finance for approval. Due to the ongoing discussions on the guideline between the stakeholders, line ministry, National Planning Commission and the Ministry of Finance and consensus yet to be reached, AEPC as of now is not able to utilize the fund. AEPC is committed to utilize the fund in effective manner post approval of the guideline

Additional Financial support Fund: In the micro hydro projects of remote areas, based on the Renewable Energy Subsidy Delivery Mechanism 2073 additional subsidy support NPR.78,984,095/- has been provided.

47. PR7374-43.1: The Government Low High ↑+ As per the management response: "

subsidy distribution process should be fair and transparent to all the related parties. As per clause 14 of Renewable Energy Subsidy Delivery Mechanism 2073, additional subsidy could be provided to those projects which remain incomplete due to technical and financial problem. The Centre received application from 28 Micro Hydropower projects and 20 Micro Hydropower projects have been provided subsidy amounting to NPR 51,794,107.50/- as first installment. However, AEPC did not publish notice for demand collection and preparation for the collection of name list did not take place. No proper justifications for selection of projects have been provided by the Subsidy Committee. Due to the lack of accountable and transparent policy for the subsidy delivery, possibilities remain there ineligible projects accessing the additional subsidy fund. It is recommended that AEPC should formulate the procedures for collection for application for subsidy via public notice, preparation of list and selecting the projects thathave met the criteria in order to make the subsidy distribution mechanism fair and transparent.

As per the management response: "
Assimilating the recommendations on delivery of additional subsidy amount, AEPC in future will ensure that the subsidy delivery process will be made more effective, transparent and informative along with preparation ofthe indicators of justifiable projects.

In the case of the 20 micro hyrdoprojects, AEPC did an analysis of the fundamental aspects of the projects prior to the additional subsidy and only projects that deserved additional subsidy were selected.

In future procedures such as notification at the respective area through public mechanism to disseminate information, collection of demand, assorting the demands received, short listing of projects, approval of projects, preparation of criteria and criteria based selection will be duly implemented to achieve accountability and transparency."

Public notice is used for collecting demand for the sick project and checklist has been prepared.

during the monitoring the status of

the equipments is also examined."

- 48. PR7374-43.2: Monitoring/ Inspection: As per Section 6 of Additional Subsidy Delivery (First amendment Mechanism 2071), projects in remote areas which are incomplete due to inability to transport electromechanical equipment are eligible for additional subsidy, NPR.46,946,692.16/has been disbursed in previous year for transportation of the equipment. However, monitoring of the status of transported equipment and whether the projects have started production has not been determined by AEPC.
- High As per the management response: " Low In Fiscal Year 2073/74, 13 projects out of 30 completed have been provided additional subsidy. Testing and commissioning of the total 30 projects have been completed. The transported equipments related to culverts and civil works are handed over to the user committee at the The initial stage. transported equipments are hence under the ownership of the user committee. AEPC conducts monitoring of the micro hydro projects as per need and

National Rural and Renewable Energy Program

_					3" December, 2018
49.	PR7374-44: Operation of Service Centres:-As per agreement with regional service centre, the service center should achieve 80% of target at end of the financial year. 9 service centres has expenses amounting to NPR.86,992,352.31/-in current fiscal year. Service centreshave not prepared progress report of the above mentioned amount	Low	Medium	<u></u>	As per the management response " The closure of NRREP in the mid of the fiscal year 2073/74 is the major reason on service centres not being able to achieve the 80% target. Hence, the agreement with the service centres ended in the middle of the fiscal year affecting the targets adversely." The service centres are now under output based contract model. Hence, the disbursement happens only post the completion stated outputs.
50.	PR7374-45:Value added tax (VAT):- As per memorandum of understanding (MOU) between Government of Nepal (GoN) and DANIDAdated 1st December 2012 to implement National Rural &Renewable Energy Programme (NRREP), the portion of VAT out of the total payment made by the programme will be refunded to the NRREP Fund. As per this clause, until the previous year VAT refundable of NPR.27,301,844.29/-and the current year's NPR.24,882,409.64/-, grand total VAT refund amounts to NPR.52,184,253.93/ NPR.34,048,264.93/- has been refunded and balance amount of vat receivable of NPR.18,135,989/- is yet to be refunded. The remaining VAT amount should be refunded.	Medium	High	† +	Closed The refund of VAT amount NPR.1,81,35,989.74/- has been received through V.no. 01(74/75) dated 2/8/2018. 52.	PR7374-47: Accounting System: As per financial procedure act, 2055 section 10 states that accounting of financial transactions should be as per the prescribed procedure of Government of Nepal. As per agreement between GON and donor agencies, financial management of donor fund shall be stated and managed on the basis of accounting principle of Government of Nepal. AEPC is accounting on cash basis double entry system Additionally AEPC also separately maintains the books of account for the grant received from donor in NAVISON and SAMS Software. These software are not recognized/approved by government of Nepal. So, prior approval and security assurance must be established.	Medium	High	† +	As stated in the management response: "Accounting system of this organization is in accordance with requirement of Government of Nepal as stated in section 10 of Financial Procedure Act, 2025. Cash basis double entry system is implemented for the budget received from Government every year and all the financial transaction including amount received from development partners are recorded in Navision and SAMSsoftware. Navision is widely used financial software. Use of Navision software is provisioned in the NRREP Administrative and Financial Guideline which was approved by Steering Committee with representatives of government of Nepal and donor agencies. AEPC will proceed with the security assurance and improvements on the software."
53	PR7374-48: Statement of Financial report of Fund:- CREFhas selected Global IME Bank from April 2014 as the handling bank for effective and independent mobilization of available fund post competition among various banking institutions. Total deposit balance of previous year in bank was NPR.1,220,666,475.23/- and the current year's deposit isNPR.2,921,917,527.16/- and expenses amount to NPR.769,671,085.70/-, the net balance amounts toNPR.2,152,246,441.46/ Center has not prepared financial statement of CREF since the previous year including assets & liabilities, partner bank balance etc. Due to the lack of financial statement, actual financial position of CREF assets & Liabilities cannot be ascertained. So, AEPC should prepare its financial statement including assets & liability of CREF to know the actual financial position.	Low	High	† +	AEPC The financial statement is available. The audit of CREF is completed.

54.	PR7374-49: Audit:	Medium	High	↑ +	As stated in the management

	stated although there is provision				

	1				3" December, 2018
	for such. All together 62 companies has been fined amounting to NPR.47,851,809/- for non-compliance of the Subsidy Delivery Mechanism based on the monitoring results ofthe third parties in 2014/15 and 2015/16.				
56.	PR7374-50.2: Company wise inspection and penalty status: As per section (11) amount of penalty of NPR.47,851,809.19/- was noted for 62 companies but for major 10 companies penalty of NPR.27,524,714.52/- (57.52%). The 10% sampling of these companies is not enough, hence the sample percentage should be increased for these companies.	Low	Medium	<u></u>	As stated in the management response: "The threshold of monitoring 10% is as per the Renewable Energy subsidy Delivery Mechanism 2070. AEPC needs to conduct a technical analysis to justify the increment of the 10% threshold. As the mechanism of penalty is governed by the Renewable Energy subsidy Delivery Mechanism 2070 and AEPC cannot proceed beyond that."
57.	PR7374-50.3: The Bio gas companies which failed to comply with the quality standard/procedure as per Third party monitoring for F.Y 2071/72 and 2072/73 has beenlevied penalty of NPR.18,319,630.92/ The amount should be recovered.	Low	Low	\leftrightarrow	from the current fiscal year. As stated in the management response: "Penalty of NPR. 18,319,630.92/- including NPR. 9,225,242.57/- from 83 companies for F.Y. 2071/72 and NPR. 9,094,388.35/- from 72 companies for F.Y. 2072/73 will be recovered as soon as possible."
58.	PR7374-51: Interest and Penalty Income: As per S.No 3 of Guiding Design Principles, Financial intermediation Mechanism of CREF, the amount as subsidy and grant which remain unspent has to be invested in safe manner in interest earning instruments and reinvestment of such amount for the expansion for sustainability of the CREF. Similarly S. No 7.2 has mentioned that interest generated will enhance the effectiveness of the fund. Based on the provisions, AEPC has earned interest and fines, the total interest income of the fund is NPR.100,339,246.60/- and penalty booked is NPR.160,748,307.01/- till date. Although the financial procedure has stated the procedure for booking of interest income but it lacks the clear procedure for the booking of fine and penalty, hence approval from GoN is required.		Medium	† +	As state in the management response: "Though the recognition of penalty as income in fund is not stated clearly in the Guiding Design Principles, the amount received has been recorded as income and kept in a safe manner. AEPC shall make necessary amendments in the guiding principle on whether the penalty amount shall be booked as income in CREF or deposited in to the GON's consolidated fund"
59.	approval from GoN is required. PR7374-52: Balance Fund:	Low	High	↑ +	CREF has selected a total of 13 banks

					3 ^{ra} December, 2018
	In the S.N 7.1 of Financial Intermediation Mechanism of CREF for the operation of fund of project the insolvency of bank is also defined. In the case of insolvency of bank the fund will have greater risk, hencediversified portfolio of the fund for minimization of risk is essential .Global IME bank has been selected for working as handling Bank .The total bank balance is NPR.4,635,973,000/- out of which the handling Bank Global IME bank has NPR.4,407,973,000 which is 95.03% of total fund amount. Investment should be diversified to obtain gain from the differential interest rate and risk due to deposit in single bank				for liquidity management. NMB being the current handling bank holds more than 50% of the fund amount at 8.5% interest rate. The rest of the amount is divided among 12 partner banks with interest rate ranging from 11% to 11.15%
60.	PR7374-53: Foreign Grant Refund:- Sec. 14(2) of Financial Procedure Act,2055 states that responsible officer should submit income& expenditure details to OAG and FCGO. NRREP established as the basket fund approach with grants DANIDA, Norway and 8 development partners, the grant amount of NPR.4,712,761,123/- is recorded as received. The amount unutilized grant amount is being refunded to the donor including the interest earned and penalty amount. Proper analysis is required in this matter	Low	High	† +	As stated in the management response: "While there is no doubt that the utilization of the remaining fund will have positive impact on the renewable energy sector, the initiative of the consultant representing the development partners on repartition of the remaining amount along with the interest earned and penalty amount will be as per the contractual agreement between the GoN and the development partners. The implementation of NRREP is based on the Joint Financing Agreement between GoN, Danish Government and Norway Government and postcompletion oftheprogram the fate of the remaining fund of the donor agencies will be as per the Joint Financing Agreement. In future, in case of new agreements on renewable energy sector with development partners, AEPC will extensively analyze these aspects of exit strategy."
61.	PR7374-54: Conflict of interest: As per section 62(3) of Public Procurement Act, 2063, in the case of personnel responsible for preparing bidding documents or specifications of a procurement contract or for supervising the implementation of procurement	Medium	High	↑ +	unutilized fund as per the JFA As stated in the management response "As per the Section 62(3) of Public Procurement Act 2063, for the governance of central renewable energy fund an Investment Committee (IC)was formed under the coordination of Joint Secretary of the Ministry of Population and

contract, a person or firm or organization or company affiliated with him/her, or an employee working in such firm or organization or company cannot participate in the bidding proceedings of such procurement. Personnel of handling bank and partner banks are in the investment committee as representative of Nepal Banker's Association which can lead to potential risk of conflict of interest. There is a possibility that the representative of Nepal Bankers Association in the Investment Committee could favor their bank and financial institution rather thanthe public interest. Therefore, considerations should be made to deter conflict of interest			Environment. The IC has a provision for one member from the Nepal Bankers Association. This adds value in the IC with expert knowledge on the banking and investment sector leading to effective mobilization of the fund. This member of the IC cannot belong to the banks involved in the bidding process and his/her sole opinion cannot lead the IC's decision, hence conflict of interest is not possible. As a member, he/she is responsible to act independently. The IC coordinated by the joint secretary of Ministry of Population and Environment, executive director of AEPC as member and head of CREF as the secretary discusses the recommendations received and only after an in-depth analysis conclusions are reached upon.and analyses discussed in committee, role of representative of Nepal Banker Association will not be superior. No conflict has arose till now due to
			inclusion of representative of banker association and possibility of rise of such conflict is also less."
As per section 118(1) of Public Procurement Act 2064, once a work under a procurement contract has already been started, if alteration or addition of new item to or replacement to the quantity of such work is required due to technical reasons, the following authority may, after preparing the cost estimate of such alteration and new item, issue a variation order as follows subject to the provision of Section 54 of the Act. There has been a variation agreement of NPR.4,19,200/- on 5 July 2016 to complete the work between 16th July 2017 to 9th December 2017 stating "Variation Order (VO) to HB to Perform Task of Financial Closure; Reconciliation and Reporting". Thevariation order agreement of NPR. 419,200/- for activities that are of regular nature of the handling bank cannot be deemed regular.	Medium	←→	According to request letter by CREF for removing the arrear form OAG's report "Certification of non-payment of fee to global IME Bank Ltd." dated 16th may 2018 ref. no. 073/074/075, "CREF had signed an agreement with the bank for providing different services which were not part of the original terms of reference. Hence, the management of the bank and CREF agreed to provide/receive the service against fee payment. In the meantime, Global IME Bank Ltd. also agreed to carry out the services on a no cost basis for a period of six months. The said amount has been booked in arrears during OAG audit. However, as the payment has not been made till date, there is no need to book the amount in arrears."
